RE: Springbrook Estates Sewer Improvement Area - Project Update

Dear Property Owner:

This letter is to serve as an update to the subject project. The Board of County Commissioners received Our department has been working completed an income survey in August of 2015 to determine if the project area would qualify for State of Ohio Community Development Block Grant (CDBG) funding assistance. The results of the survey indicated the project area will not qualify for CDBG assistance.

Therefore, since the income survey, the department has been working on making application to the United States Department of Agriculture (USDA) for grant and loan assistance. The process is laborious, and will take several months to complete. We hope to have a funding assistance plan established by this Fall so we may conduct another Informational Meeting to review the cost, plan and schedule for construction of sanitary sewer improvement. We appreciate everyone's patience in this matter.

If you have any questions, please contact our office.

Sincerely,

A handwritten signature in black ink that reads "Stephen M. Kayatin".

Stephen M. Kayatin, P.E.  
Sanitary Engineer
